

I am writing in response to the upcoming ruling of the FCC concerning a service known as LPFM. Please reconsider NOT expanding the LPFM services. I am a regular listener of K-LOVE which is a station transmitted out of Denver. The news items are informational and the music encourages and lifts my spirit daily. Our area does not offer a Christian radio station that is not bombarded by commercials a value assets especially during this election year! So many radio commercial are negative and I do find myself offended often by the commercials. K\_LOVE is a positive atmosphere and provides uplifting items, radio personalities, and a help prayer line for someone to talk to. If you allow the LPFM to take priority over K-LOVE you will be committing a grave disservice.
